

## NOTICE TO SPECTRUM MEMBERS

### Spectrum MTF General Notice

**Date and time of the communication:** 2023-01-25 9:00 CET

#### Spectrum Failover Validation

Spectrum will hold its data centre failover validation starting after the trading session close on the 10<sup>th</sup> of February and will resume at 23:00 CET on the 12<sup>th</sup> of February 2023. The validation will be done for both production and demo servers.

If your FIX gateways does not automatically connect to the active Spectrum server, please update your FIX application to target the alternate IP address provided to you. FIX clients using a hostname to connect would be directed to the active server automatically.

We encourage all members to use this exercise to also assure that failover scenarios are handled properly on your side. Details on the connection scenarios can be found in the "Spectrum client connectivity and failover" manual published on the Spectrum website.

For questions/clarifications, we are reachable via phone +49 69 427 299 111 during the Spectrum trading hours or via email at [operations@spectrum-markets.com](mailto:operations@spectrum-markets.com).
